British Archdeacon Visiting Here Says Condition Is Exaggerated

NO DANGER OF REVOLT

Declares Government's Common-Sense Course Prevented Serious Trouble

There has been profiteering by some classes of labor in England during the war, just as there has been profiteering by some American labor, but the great masses of labor, the common-sense Englishmen, will not permit that to con-

So said the Rev. John Harold Greig. Archdeacon of Worcester, Singland, guest of Bishop Philip M. Rhinelander, in an interview today.

The mild-mannered yet forceful and wirile Englishman talked informally and delightfully of the social and labor sitnation in England, though he made it clear that he did not come to America to discuss politics or economics, but as a sort of envoy from the English Church to its sister, the Episcopal Church-to bring the two great bodies into closet understanding and sympath)

Says Government Acted Wisely

"The principal reason there is no such danger is that the government has met the situation wisely and fairly. King George's speech from the throne at the convening of Parliament was a virtual acceptance by the government of the Labor party's program, which is satisfactor.

"It is exploited.

"It is exploitation of labor, refusal to be fair to labor, that gives the self-seeking and insincere 'Bolshevist' or ultra-radical leader his greatest help. It is fair treatment of labor, recognition of its needs and its rights that disarms the ultra-radical leaders and knocks their feet from under them. What England is doing every nation must do, and the nations that are fair to labor need have no fear of the snarchists and the other radicals and so-called 'Reds.'

She does her work because she loves to help others. She feels that she is in a position where, by kind acts, she can help to brighten the lives of a host of women-workers; that she can help to teach them our American customs and our language; that she can develop in them the love of the beautiful in their home lives; that she can make them as proud to live in America and to become American citizens as she herself is proud to live here and to be a loyal.

## The Invisible Conflict

From the moment of birth- body to defend itself. Not only and before-until the hour of death, there is going on within the body a constant conflict, unseen and usually unfelt, between forces that seek to defend, and others that strive to destroy. Germs that enter from without

are attacked and destroyed by the living guardians in the blood, the white blood cells or phagocytes. Poisons generated within seek entrance into the blood and are removed or destroyed by the functions of the intestines, liver and kidneys. Food waste allowed to stagnate

and remain in the intestines, unevacuated, poisons the blood and destroys its power to defend against outside or inside enemies. Such self-poisoning causes over 90% of human illness.

Constipation turns the tide of the invisible conflict against the body, in favor of the invaders. Nor does the taking of castor oil, pills, salts, mineral waters, etc., to force the bowels to move enable the

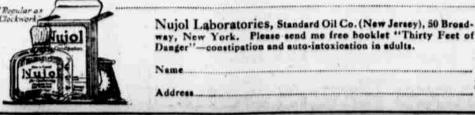

will the constipation grow worse with the continuance of such remedies but the dose must be constantly increased with an ever-weakening effect. On the other hand Nujol over-

comes constipation and brings about the habit of easy, thorough bowel evacuation at regular intervals, because Nujol is not a drug, does not act like any drug. Nujol brings about a return to Nature's methods by supplying necessary lubri-cation of the bowel contents, by facilitating intestinal muscular action, by absorbing poisonous matter, and thus securing necessary cleansing of the intestinal canal and protection of the defensive properties of the blood itself.
